Head Teacher: Mr T Abbs

15th January 2024

Dear Parents of Reception Pupils,

You will have – undoubtedly – heard us talk about Active Learn Primary to support pupils in maths.

In Year 1 – 6, the games are setup so that children can access and play independently.

For pupils in Year R, it works slightly differently, hence the letter to explain:

Your child's account has been loaded with **13 School Jam digital games & 18 School Jam videos:**

- School Jam digital games – These are digital games that were made for children to play with an adult E.g. two player. These games are fun and can bring a competitive element to learning about Maths.
- School Jam videos – These videos are meant for children to view with their parents. The videos provide a useful scaffold for games you can recreate with your child to accelerate their knowledge and understanding of key, early maths skills.

The games/videos can be played again and again to over-learn, consolidate & master early maths skills.

Look inside your child's book bag today and you will see their login details/card.

We hope you enjoy!

Other:

Your child should already have access to Numbots, Spelling Shed assignments (linked to phonics) and be heard/read to every night

Please do not hesitate in reaching out to Mrs Nicholls or myself if you need further support.

Thank You for your ongoing support

Mr Abbs & Mrs Nicholls
